

IF International Youth Group SBH

Following the work of last year and ongoing internal discussion of the IF International Youth Group SBH, we understand that independent living is vitally important to our SBH Community, especially young people with SBH.

As chair of the IF International Youth Group with SBH, I can totally relate to this year's theme. Plus, being a 25 year old wheelchair user living in Ireland and driving my own car, as well as an active para-athlete, this topic of independent living is a must for my life.

Therefore, as the International Youth Day August 12 2022 is approaching, we want to mark this important day and strongly encourage you to get involved with us. Feel free to tell us what independent living means to you, share with us your own story of independence and help us to increase awareness of independence within the SBH community.

This is a great opportunity to share to the world what it has been like for youths with spina bifida and hydrocephalus.

Please join the campaign [HERE](#).

We look forward to hearing your thoughts and stories.

On behalf of the International Youth Group SBH.

Cillian Dunne - Chair
